

KNOW^{the} 10 SIGNS

EARLY DETECTION MATTERS

A Workshop Presented by the Alzheimer's Association

Know the 10 Signs. Early Detection Matters.

The warning signs of Alzheimer's disease are often dismissed as side effects of normal aging. If you or someone you know is experiencing memory loss or behavioral changes, it's time to learn the facts. Early detection gives you a chance to begin drug therapy, enroll in clinical studies and plan for the future. Attend this interactive workshop to learn the 10 Warning Signs of Alzheimer's disease. We'll separate myth from reality and address commonly-held fears about Alzheimer's in America. Hear from people who have the disease and find out how to recognize the signs in yourself and others. Seating is limited, registration is required.

Location:

St. Peter's Lutheran Church
1600 S. Main Street
Fond du Lac, WI 54937

Presenter:

Alyssa Nickodem
Community Outreach Coordinator
Alzheimer's Association
